# About us

**XIX edition of one of the largest in Poland and Europe free conference about widely understood open source.**

**Dni Wolnego Oprogramowania(DWO) is an open conference for fans of the open source movement, particularly for those interested in the possibility of using open source software in business.**

**Since 2006, the conference is organized periodically in Bielsko-Biala, gathering usually more than 400 people - both young people, students, and employees of the IT industry.**

**Participation in the conference is an opportunity to establish contacts, creating the company's image in the eyes of young people fascinated by IT and spend three days exchanging experiences and exploring the secrets of open source topics.**

# Our mission

- Building the Open Source community in Poland and Europe,
- Promotion of new technologies and the idea of free software among secondary school pupils and students,
- Promoting innovation, creativity and willingness to share knowledge, not only in the application source code, but also equipment and universal access to knowledge and education.
